# MOVING CAN BE EXPENSIVE!

But it doesn't need to empty your wallet. The price of a local or interstate move is usually based on the weight of the shipment and the distance of a move. Local moves are calculated by handling time and added services, like packing. The bottom line is simple: the more stuff you move, the more it will cost you.

Within this guide, you will find very useful tips and tools to move like a Pro!

# HOW TO PLAN YOUR MOVE

Moving from one home to another can be overwhelming, especially when it means relocating to a new state.

But your move doesn't have to be stressful. With a bit of preparation and the right professional help, you and your family can have a safe, successful move – and even have a little fun along the way, too!

To help you get started, we've put together our best advice on how to plan for moving, particularly when you've hired professional movers to help.

## PRO-TIP 1 - DO YOUR HOMEWORK

The best way to ensure a successful move is to hire a great moving company. There are so many companies from which to choose, but a little extra research can go a long way in helping you avoid any moving headaches down the road.

## PRO-TIP 2 - REQUEST AN ESTIMATE

A reputable moving company will come to your home to conduct an in-person survey of the items being moved. When the estimator arrives, be sure to show him everything to get an accurate estimate

## PRO-TIP 3 - VISUALIZE YOUR PLAN

Depending on the size of your home, professional packers could be a lifesaver. They're surprisingly quick and can give you peace-of-mind knowing your items will be packed properly. Every professional mover has a list of non-allowable items they cannot transport for safety or liability reasons.

### TYPICAL NON-ALLOWABLE ITEMS

- PLANTS
- ANY HAZARDOUS MATERIALS
- HOUSEHOLD CLEANING MATERIALS
- ALCOHOLIC DRINKS

## PRO-TIP 4 - SCALE DOWN YOUR ITEMS

One of the best ways to cut your moving costs is to clean house! Before moving day, take the time to reduce the clutter that's been collecting dust in your home. Donate unwanted items to a local charity, sell them online or simply throw them out.
